

SUPERLEX w/segments in all three beams

00312670

Manual folding machines - HS-2AS-S SUPERFLEX

The Superflex range of folding machines are a new generation of sheet folders with segment divided clamp, bed and fold bars, for folding materials in inverse directions, enabling, special profiles to be formed.

The Superflex machines are of a sturdy and fully welded construction.

Foot-operated control of the clamp bar ensures extremely fast and simple operation, and allows both hands to be kept free for adjustment of the material being folded.
